PROFILE

I'm a UI/UX Developer with 8+ years Building, Developing & Managing websites, applications, and programs for various companies. I seek to secure the Position Front Web End Designer with Orbits International and hope to share my skills, expertise, and experience with your team and valuable clients. Excellent Programmer and Communicator with the ability to deal with issues with precision & accuracy.

WORK EXPERIENCE

Operation Customer Services & Support | Thomson Reuters Jan 2022 - Present

- Handle design intake within a project team to interview clients on the needs and goals of their firms and create graphical website prototypes for clients to review. Collect, convert, and edit text and graphical materials provided by clients for those prototypes as necessary. Incorporate special web features and proprietary functionality.
- Work in a fast-paced, production environment with the customer in mind
- Provide a high level of customer service.
- Responsible for managing workflow, duration and final design delivery to obtain design approval from the client.
- Responsible for on-time tasks and project delivery
- Windows OS Platforms & Mac OS Platforms.
- Adobe Creative Cloud (Photoshop, Illustrator).
- HTML, CSS and Javascript.
- Hands-on WordPress experience, including customization with CSS/HTML.
- Excellent knowledge of web standards, usability and web fonts.
- Ability to create concepts within specified deadlines.
- Ability to understand customer needs, pitch creative direction, develop concepts and write creative briefs for other designers.
- Communication skills that ensure off-site designers are up to date on project needs and in the loop on updates, revisions and changes.
- Ability to delegate design responsibility, managing outsourced designers without making hands-on changes personally.
- Proven attention to detail.
- Strong organization and time management skills.
- Ability to take direction from customers, providing productive feedback and design rationale.
- Ability to function well under pressure.
- Focused on results and accountability.
- Able to work autonomously, and prioritize workload with minimal supervision.
- Proven ability to work cross-functionally and be open to others' ideas.
- Strong influence and negotiation skills.
